8 PLAYING FIELD AND NATURE PARK

9 PROTOS (INCE PARK) COMMUNITY FORUM

It has just been announced that Peel Environmental is working in partnership with Waste2Tricity to deliver a 'UK first' plastics to hydrogen project at its Protos site. Using pioneering advanced thermal treatment technology, it will produce a local source of hydrogen from unrecyclable plastics. This clean and low-cost hydrogen could then be used to initially power buses and Heavy Goods Vehicles (HGVs) in the region, before being rolled out to hydrogen cars, helping to reduce air

pollution and improve air quality on our roads. The plant will treat up to 25 tonnes of waste plastics a day that would otherwise go to landfill or incineration. This will be the first commercial scale project in the UK, with the technology having been developed by Powerhouse Energy over several years at the University of Chester Energy Centre next door to Protos. In addition to the production of decentralised hydrogen, the plant will also generate electricity which could be supplied to businesses located at Protos via a micro-grid.

10 FINANCE

(1) Receipts:

Cheshire West & Chester Council - Precept	11,000.00
---	-----------

(2) Payments: To note payments made since the last meeting

Parish Clerk-salary April 2019	185.95

11 ITEMS RAISED BY COUNCILLORS FOR INFORMATION/NEXT MEETING

12 DATE OF NEXT MEETING

The next meeting would normally be scheduled for Tuesday 28 May 2019 at 7.30pm in Little Stanney Village Hall. However, the first meeting following an election must be held within 14 days of the date of retirement of the previous Council. The date of retirement is the fourth day after the election which this year is 7 May, taking account of the May day bank holiday and the weekend, so the meeting must be held before 21 May.
