

## Household Waste Recycling Centres

Our recycling centres are dealing with an influx of visitors. Please only visit the sites if your journey is essential. Kerbside garden waste collections have resumed.

There are currently long queues for the Household Waste Recycling centres. Sites close promptly at 4pm. Please be aware that you will not gain entry after 4pm regardless of the size of the queue and you may be turned away before 4pm to allow those on the sites to dispose of their waste safely and correctly.
